Continuation of 4(e) Other: The applicants' amended Claim 53 without properly annotating their amendments (i.e. underlining all of the newly amended limitations); Claim 53 only previously recited "the digital filter is a Nyquist filter having a cut-off frequency approximately equal to the frequency half width of the channel"; however, now has a multitude of limitations that were never previously presented and are not currently underlined as new subject matter to the claim.

See 37 CFR 1.121: "...The text of any added subject matter must be shown by underlining the added text..."
